

CICLO | STUDIO

CicloZone for Unconnected studio

Bring Modern Cycling to Classic Studios

Non-Connectable Bikes?

CicloZone makes it easy for any studio – even those with older, non-connectable bikes – to deliver a modern, connected cycling experience. With the CicloZone Power Crank, your existing bikes instantly track power and cadence

No Studio Screen?

Absence of screen is not a problem, as Riders can follow class profiles and zones directly on their phones through the CicloZone app, and Instructors can teach pre-made classes and lead free ride sessions from their devices

NON-CONNECTABLE BIKES

ONE POWER CRANK AWAY FROM CONNECTIVITY

Bring new life to your studio by transforming ordinary bikes to connectable with minimal investments.

Transmits RPM and Power data via Bluetooth

Quick and easy installation, with a simple annual CR battery change maintenance

Transforms any spin bike into fully connectable bike for £145 per bike

Special pricing considerations for bulk purchases are available. For further information, please inquire directly

CicloZone Power Crank

Placement

CicloZone in Absence of Studio Screen

Rider Dials

Target zones based on class profile and rider's personal FTP ensuring individualised training

Instructor Control Panel

Guidance on each interval for step by step prompted delivery to class

Free Style Control

Full control of class intensity in real time while using personal music playlists

Thank you!
